

Care you can trust.

Expect high-quality, coordinated care at
Kaiser Permanente Affiliated Hospitals

Your local Kaiser Permanente Affiliated Hospital

Adventist Health Bakersfield
2615 Chester Ave.
Bakersfield, CA 93301

Same great care. Close to home.

You always deserve high-quality care. So we work with select hospitals to make sure our members have access to Kaiser Permanente care – even if there isn't a Kaiser Permanente hospital nearby.

- **Choosing the right hospitals**

Each Kaiser Permanente Affiliated Hospital has been carefully evaluated for quality of care, comfort, and services. They're subject to the same independent third-party safety and quality rankings as our own Kaiser Permanente hospitals.

- **Delivering coordinated and connected care**

As a patient at a Kaiser Permanente Affiliated Hospital, you'll be cared for by Kaiser Permanente doctors and specialists.* They're connected to your electronic health record, so they can review your health history – including your medication history, lab results, allergies, doctors' notes, and more – and keep it up to date as your care evolves.

- **Creating a smooth, seamless experience**

Kaiser Permanente doctors coordinate your care before, during, and after your time in the hospital. So there are no gaps in your care – and once you're discharged, you can focus on recovery while we guide your transition to follow-up care. And don't worry about transferring records from your hospital stay, because they're captured in your electronic health record.

*In some instances, non-Kaiser Permanente doctors will be part of your in-hospital care team.

What you can expect at your Kaiser Permanente Affiliated Hospital

Enjoy peace of mind. Get the same great care you expect, from Kaiser Permanente doctors you can trust.
